Colouring activity: paint a native European oyster

The native European oyster has inspired artworks for centuries. If you find oyster shells on the beach, it can be fun to paint them. Here you can draw on and colour a native oyster shell. Let your imagination run wild! The art world is your oyster.

You can enjoy this activity at home. If you would like to share your artwork with oyster enthusiasts and conservation biologists, please send a photograph of your picture to secretariat@noraeurope.eu
